SHANEEZA HASNANI

Washington, DC 20007 | (210) 935-7217 | hasnani.shaneeza@gmail.com | LinkedIn | github.com/shaneeza-hasnani | shaneeza-hasnani.com

EDUCATION

American University, Kogod School of Business **Dec 2026**
Master of Science, Business Analytics and AI | Concentration in Data Science *Washington, DC*
• **Coursework:** Statistical Machine Learning, Advanced Text Analytics, Databases and AI, Business Intelligence, Predictive Analytics

CUNY John Jay College of Criminal Justice **May 2025**
Bachelor of Science, Fraud Examination and Financial Forensics Minor: Computer Science *New York, NY*

WORK EXPERIENCE

Schmidt Special Competitive Studies Project (SCSP) **Jan 2026 - May 2026**
Research Data Analyst
• Built a Google Apps Script dashboard connecting Airtable, Google Sheets, and third-party APIs, reducing meeting preparation time by 50%.
• Automated a daily pipeline that pulled company news from multiple sources into one digest, saving 3 hours of manual research each week.
• Tracked activity across 30+ companies and prepared weekly reports for leadership, reducing planning time by 30%.

EduGuide Overseas Pvt. Ltd. **Aug 2024 - Dec 2025**
Data Analyst
• Trained Random Forest and logistic regression models in Python and R, improving fraud detection accuracy by 25% over manual review.
• Built a Python risk-scoring model to classify 200K+ transactions each month, prioritizing higher-risk cases for investigation.
• Analyzed 500+ payment datasets each month using SQL and Python, identifying behavioral patterns associated with fraud and reducing false-positive reviews.
• Automated risk-scoring pipelines that reduced suspicious applications by 20% annually.
• Built Power BI dashboards that cut reporting review time by 15%.

Guidehouse, Inc. **Jun 2024 - Aug 2024**
Financial Crime and Investigative Services Intern
• Investigated 20,000+ ACH and wire transfers with SQL and Python, identifying suspicious transaction patterns for escalation during a financial crime consulting engagement.
• Engineered transaction-level features in SQL and pandas, applying anomaly detection to identify 50+ high-risk transaction patterns.
• Integrated machine learning outputs into transaction risk scores, improving compliance monitoring by 30%.

NYS Office of the Attorney General, Medicaid Fraud Control Unit **Jun 2023 - Aug 2023**
Audit Intern
• Examined Medicaid claims through SQL analysis and statistical validation, identifying $500K+ in recovery anomalies during state fraud audits.
• Applied logistic regression in R and automated data extraction using UiPath, reducing fraud case resolution time by 20%.

PROJECTS

Fraud Detection Pipeline **Apr 2026**
• Snowflake and SQL
• Built a three-layer data pipeline in Snowflake that processed 6.3 million PaySim transactions end-to-end using SQL.
• Engineered and validated three behavioral features against ground-truth labels, including origin-account balance zeroing and unchanged destination balances after funds were received.
• Developed a rule-based risk-scoring model that segmented 6.3 million transactions into four risk tiers, with the high-risk tier capturing 76% of actual fraud compared with a 0.13% baseline fraud rate.

LinkedIn Job Skills & Salary Analytics **Oct 2025**
• R, Machine Learning, Statistical Modeling
• Analyzed LinkedIn job-posting data using association-rule mining and clustering to identify recurring skill combinations and distinct skill-based job profiles across industries.
• Built decision-tree and regression models with experience-industry interactions to evaluate how skill profiles, career level, and industry relate to compensation.

SKILLS

• **Programming**: Python, SQL, R, C++
• **Machine Learning**: scikit-learn, XGBoost, LightGBM, Random Forest, Logistic Regression, Decision Trees, Anomaly Detection, Feature Engineering, pandas
• **Data Analysis & Visualization**: Power BI, Tableau, Excel, SPSS, Statistical Analysis, Predictive Modeling
• **Development & Automation**: Jupyter, RStudio, VS Code, Git, GitHub, UiPath, Google Apps Script, Airtable
• **Domain Expertise**: Fraud Detection, Transaction Monitoring, Risk Scoring, Investigative Analytics, Financial Crime, Compliance Monitoring

CERTIFICATIONS

• Certified Fraud Examiner (CFE)
• UiPath Academy Agentic Automation Developer Associate
• Microsoft Office Specialist: Excel Expert
• SQL Associate: DataCamp
• Microsoft Certified: Azure AI Fundamentals
